

## **Artech Continues to Drive Employment in China**

**CEDAR KNOLLS, NJ and DALIAN, CHINA, August 28, 2008** – Artech continues to be one of China’s top suppliers for employment staffing. Supporting many of the country’s top technology firms, Artech is a leader in sourcing top notch IT and non-IT professionals for its clients. This week, Artech was named the #1 Preferred Supplier to its largest client in China.

Artech is a pioneer in China’s employment sector, entering the market before the existence of a staffing industry. Today, Artech China Limited is creating new opportunities for technical professionals across China. Its professionals are consistently ranked highest in their quality of work.

“We are proud to be a driving force in this thriving, forward-thinking economy,” said Varun Mehra, Artech’s Vice President in charge of Global Operations. “By helping meet the growing employment demand in China with qualified resources, we in turn contribute to the cycle of success the country is enjoying today and well into the future.
